

YEARS OF KNOWLEDGE IN ONE MACHINE

# SYMACH

A THIELE TECHNOLOGIES COMPANY

PRESENTS THE NEW  
PALLETIZER

# Brand New Thiele-SYMACH Palletizer

## Horizontal loading

- Reduced drop height
- Less movement
- More even distribution of the product inside the bag

## Motor mounted inverter drives

- Manipulator drives with Decentralized Drive Technology
- Dynamic a-synchronous technology
- Accurate positioning
- Full dust protection
- High efficiency motors in compliance with latest IE2 directive

## New design top frame

- Self cleaning formation doors
- Fully closed top level, protecting moving parts, maintenance friendly, dustproof
- Symmetric frame, modular design for various lay out solutions

## New design lower frame

- Heavy duty frame for maximum stability
- Vibration free
- Industrial new design

## New DUAL DRIVE pallet lifting system

- Electric motor driven lift
- Clean, maintenance free gearwheel drive
- Fully balanced lift movement
- Even pressure when compressing layers equals less stress to the machine's framework.

Fully closed top level

Self cleaning formation doors
